INDEX TO VOL. VI (A).

AUTHORS' INDEX.

Ahmad, S. Z., and Desai, R. D.	Heterocyclic Compounds. Part III—The synthesis of Cyclopenteno-(1':2':2:3)-chromones, and a discussion on the mechanism of the Pechmann and the Simonis reactions, 6.
Asundi, R. K., and Karim S. Mujtaba	On the emission spectrum of $SiBr_4$, 281. On the emission spectrum of CCl_4, 328.
Asundi, R. K., and Parti, Y. P.	On the emission and absorption band spectra of selenium, 207.
Auluck, F. C., and Chowla, S.	The representation of a large number as a sum of "Almost Equal" squares, 81.
Ayyangar, A. A. Krishnaswami	Correlation by the method of factors, 71.
Bhaduri, Bhutnath ..	*See* Singh and Bhaduri.
Bhatnagar, S. S., Lessheim, H., and Khanna, M. L.	The ground-state of the Se_2 molecule, 155.
Bhawalkar, D. R. ..	An explanation of the maximum in secondary electron emission from metals, 74.
Chowla, I ..	A new evaluation of the number $\Gamma(k)$ in Waring's problem, 97.
Chowla, S. ..	Auluck's generalization of the Simson line property, 79. *See* Auluck and Chowla. On a trigonometric sum, 291.
Desai, D. D. ..	*See* Tawde and Desai.
Desai, R. D. ..	*See* Ahmad and Desai.
Desai, R. D., and Hamid, S. A.	Heterocyclic compounds. Part IV—Coumarins from reacetophenone and ethylacetoacetate and synthesis of coumarino-γ-pyrones, 185; Synthesis of 2-methyl-6-ethyl-7-hydroxy-chromone and its derivatives, 287.
Desai, R. D., and Wali, M. A.	Studies in the Friedel-Crafts reaction, II. The condensation of the anhydrides of as-disubstituted succinic acids with benzene and toluene, 135; III. The condensation of succinic anhydride with the methyl ethers of the phenol and the cresols, 144.
Diwan, G. S., and Narlikar, V. V.	Addendum. "A Practical Financial Transaction", 154.

Doss, K. S. Gururaja .. Inhibition of fluorescence, 24.
See Venkatanarasimhachar and Doss.

Hamid, S. A. .. *See* Desai and Hamid.

Karim, S. Mujtaba .. *See* Asundi and Karim.

Khanna, M. L. .. *See* Bhatnagar and others.

Lessheim, H. .. *See* Bhatnagar and others.

Malurkar, S. L. .. On a method of solving linear differential equations in series, 1.
Ellipsoidal harmonics of large orders, 243.

Mandeville, D. C. .. *See* Thomas and Mandeville.

Misra, B. .. *See* Singh and Misra.

Moessner, Alfred .. Einige Diophantische Probleme und Zahlentheoretische resultate, 233.

Moore, R. L. .. A combined electrometer and thermionic voltmeter, 195.

Murty, K. Satyanarayana, Rao, P. Suryaprakasa, and Seshadri, T. R. Geometrical inversion in the acids derived from the coumarins, Part VI.—The behaviour of the acids derived from 4-methyl-coumarins, 316.

Narlikar, V. V. .. *See* Diwan and Narlikar.

Neelakantam, K., and Seshadri, T. R. Constitution of Gossypitrin. An attempt to define the position of the glucose residue, 12.

Pandya, K. C., and Vahidy, T. A. The condensation of aldehydes with malonic acid in the presence of organic bases, Part IX—The condensation of β-hydroxy-naphthaldehyde (2-hydroxy-1-naphthaldehyde), 181.

Parti, Y. P. .. *See* Asundi and Parti.

Pillai, S. S. .. Generalization of a theorem of Davenport on the addition of residue classes, 179.

Ramaswamy, K. L. .. Dielectric polarisation and the form of the carbon dioxide molecule, 301.

Rangaswami, S., and Seshadri, T. R. Constitution of Coumarinopyrones derived from 7-hydroxy-coumarins, 112.

Rao, A. L. Sundar .. Photodecomposition and absorption spectrum of potassium permanganate, 293.

Rao, Basrur Sanjiva .. *See* Rao and Rao.
See Subbaramiah and Rao.

Rao, B. S. Madhava .. Ring-singularity in Born's Unitary Theory—II, 129.
Generalised action-functions in Born's electro-dynamics, 158.

Rao, C. Venkata .. *See* Rao and others.

Rao, Kittur Subba, and Rao, Basrur Sanjiva — Studies in adsorption on gels, II—A comparative study of the capillary spaces in gels of silica and alumina, 16.

Rao, P. Suryaprakasa .. *See* Murty and others.

Rao, P. Suryaprakasa, and Seshadri, T. R. — Reactivity of the double bond in coumarins and related α-β unsaturated carbonyl compounds, Part IV—Action of bromine on coumaric acids, 238.

Rao, P. Suryaprakasa, Rao, C. Venkata, and Seshadri, T. R. — Geometrical inversion in the acids derived from the coumarins, Part V—The behaviour of psoralic and *iso*psoralic acids, 148.

Samuel, R. .. — An energetical interpretation of the semipolar double bond, 257.

Savur, S. R. .. — The replication of an experiment, Part I.—Identical samples from a binomial population, 174. Evaluation of $I_p(n-r, r+1)$, 249.

Seshadri, T. R. .. — *See* Neelakantam and Seshadri. *See* Rangaswami and Seshadri. *See* Rao and others. *See* Rao and Seshadri. *See* Murty and others.

Shabde, N. G. .. — On series of Jacobi-polynomials and definite integrals involving Bessel functions, 119.

Sharma, V. .. *See* Siddiqui and Sharma.

Sibaiya, L. .. — Nuclear spin of Rhodium, 229.

Siddiqi, M. R. .. — On the theory of non-linear integral equations, 83.

Siddiqui, S., and Sharma, V. — Studies in the conessine series, Part III.—Degradation of conessine and *iso*conessine hydroiodides to a common hydrocarbon, 191; IV.—Action of nitric acid on conessine and the reduction of one of its two isomeric mono-nitro derivatives to mono-oxy and *iso*-di-oxy-conessine, 199.

Singh, B. K. .. *See* Thosar and Singh.

Singh, B. K., and Bhaduri, Bhutnath — Studies on the dependence of optical rotatory power on chemical constitution, Part XV.—Chloroaryl derivatives of stereoisomeric methylenecamphors, 340.

Singh, B. K., and Misra, B. — The Physical identity of enantiomers, Part IV—The Raman spectra of *dextro* and *lævo* camphoric acids and camphoric anhydrides, 90.

Subbaramaiya, D. S. .. — Diffraction of light by ripples on liquid surfaces, I, 333.

Subbaramiah, K., and Rao, Basrur Sanjiva	Physico-chemical investigations on varietal differences in rice. I. Sorption and desorption of water vapour by rice grains, 36; II. The protective action of suspensions of rice in water, 46; III. Electrical conductivities of rice suspensions in water, 52.
	The mechanism of the clarification of muddy water by *Strychnos potatorum* seeds, 59.
Tawde, N. R., and Desai, D. D.	Rôle of argon in the production of Swan bands, 266.
Thomas, M. K., and Mandeville, D. C.	The electrical conductivity of potassium chloride in methyl alcohol-water mixtures, 312.
Thosar, B. V., and Singh, B. K.	The Raman spectra of *dextro, lævo* and racemic forms of borneol and camphor, 105.
Vahidy, T. A. ..	*See* Pandya and Vahidy.
Vaidya, W. M. ..	The flame spectra of some aliphatic halides, Part I.—(1) methyl iodide, 122.
Venkatanarasimhachar, N., and Doss, K. S. Gururaja	Selective adsorption on silica gel from pyridine-alcohol mixtures, 32.
Wali, M. A. ..	*See* Desai and Wali.

TITLE INDEX.

Adsorption on gels, Studies, II (Rao and Rao), 16.

Adsorption, selective, on silica gel from pyridine-alcohol mixtures (Venkatanarasimhachar and Doss), 32.

Aldehydes, condensation, with malonic acid in the presence of organic bases, IX (Pandya and Vahidy), 181.

Born's electro-dynamics, generalised action-functions (Rao), 158.

Born's Unitary theory, ring-singularity, II (Rao), 129.

Clarification of muddy water, mechanism, by *Strychnos potatorum* seeds (Subbaramiah and Rao), 59.

Conessine series, studies, III, IV (Siddiqui and Sharma), 191, 199.

Correlation by the method of factors (Ayyangar), 71.

Coumarinopyrones derived from 7-hydroxy-coumarins, constitution (Rangaswami and Seshadri), 112.

Coumarins and related α-β unsaturated carbonyl compounds, reactivity of the double bond, IV (Rao and Seshadri), 238.

Davenport, theorem, generalisation, on the addition of residue classes (Pillai), 179.

Dielectric polarisation and the form of the carbon dioxide molecule (Ramaswamy), 301.

Differential equations, linear, in series, on a method of solving (Malurkar), 1.

Diffraction of light by ripples on liquid surfaces, I (Subbaramaiya), 333.

Diophantische probleme und zahlentheoretische resultate (Moessner), 233.

Electrical conductivity of potassium chloride in methyl alcohol-water mixtures (Thomas and Mandeville), 312.

Electrometer, combined, and thermionic voltmeter (Moore), 195.

Electron emission from metals, secondary, an explanation of the maximum (Bhawalkar), 74.

Ellipsoidal harmonics of large orders (Malurkar), 243.

Emission and absorption band spectra of selenium (Asundi and Parti), 207.

Emission spectrum of CCl_4 (Asundi and Karim), 328.

Emission spectrum of $SiBr_4$ (Asundi and Karim), 281.

Enantiomers, physical identity, IV (Singh and Misra), 90.

Financial transaction, practical (addendum) (Diwan and Narlikar), 154.

Flame spectra of some aliphatic halides, I (Vaidya), 122.

Fluorescence, inhibition (Doss), 24.

Friedel-Crafts reaction, studies, II, III (Desai and Wali), 135, 144.

Geometrical inversion in the acids derived from the coumarins, V (Rao and others), 148.

Geometrical inversion in the acids derived from the coumarins, VI (Murty and others), 316.

Gossypitrin, constitution. An attempt to define the position of the glucose residue (Neelakantam and Seshadri), 12.

Ground-state of the Se_2 molecule (Bhatnagar and others), 155.

Heterocyclic compounds, III (Ahmad and Desai), 6.

Heterocyclic compounds, IV, V (Desai and Hamid), 185, 287.

Integral equations, non-linear, theory (Siddiqi), 83.

I_p $(n-r, r+1)$, evaluation (Savur), 249.

Jacobi-polynomials and definite integrals involving Bessel functions, series (Shabde), 119.

Nuclear spin of rhodium (Sibaiya), 229.

Number, large, representation, as a sum of "Almost equal squares" (Auluck and Chowla), 81.

Optical rotatory power, studies on the dependence, on chemical constitution, XV (Singh and Bhaduri), 340.

Photodecomposition and absorption spectrum of potassium permanganate (Rao), 293.

Physico-chemical investigations on varietal differences in rice, I, II, III (Subbaramiah and Rao), 36, 46, 52.

Raman spectra of *Dextro, lævo* and racemic forms of Borneol and camphor (Thosar and Singh), 105.

Replication of an experiment, I (Savur), 174.

Semipolar double bond, energetical interpretation (Samuel), 257.

Simson line property, Auluck's generalization (Chowla), 79.

Swan bands, rôle of argon in the production (Tawde and Desai), 266

Trigonometric sum (Chowla), 291.

Voltmeter, thermionic, and combined electrometer (Moore), 195.

Waring's problem, a new evaluation of the number $\Gamma(k)$ (Chowla), 97.
